Number 8.

## Workout for Debaters In Gordon Memorial

Will Be Held Friday Evening of This Week

Arrangements have been made to have a final workout out for our school debaters before they go to Edmonton for the final provincial contest. This will be held in Gordon Memorial church on Friday evening of this week, commencing at 8 o'clock sharp. The subject will be "Resolved that newspapers, as at present conducted, are a menace to society." Redcliff representatives will have the opportunity to debate the argument. It has been decided to send Edna Vernon and Leonard Hicks to Edmonton to represent our school and for the work out on Friday these two will debate against Rev. R. N. Matheson and Mayor Bell.

As the proceeds from the debate here will be used to take a substitute to Edmonton, it is hoped the work out will be a good turnout.

## Ladies Aid to Give Concert March 17

Will Be Held in the Gordon Memorial Church

The Ladies Aid of Gordon Memorial will give an entertainment in the church on Wednesday evening, March 17th. On this occasion they will put on a play "Not a Day in the House," in which the following ladies will take part: Miss Finkler, Miss Beaudry, Miss Beaudry, Miss Moore and Miss Beaudry. Besides the play there will be a musical program and a talent show. Keep the date in mind.

## Freight Rate Appeal Judgment Reserved

Crew's Next Problem Is Now in the Hands of Board

The crew's Next Pass rate problem is again in the hands of the level of railway conductors. The order is good last September extending their rates to September 1st and their refusal to three separate appeals to the board for further interpretation. The first of these was settled last month when, by an equal division among the conductors, the September order was continued in force. Yesterday the board closed a week's sitting on the other two appeals, both of which judgment has been reserved.

Eight two men were paid of an effort by the province of British Columbia, Alberta and Saskatchewan to get a further reduction in the rates as put in force by the railways after the September order. These provinces claimed first and second round rates on goods and they are now the crew's Next haul, as interpreted by the art passed last June. They asked that these next round rates be reduced in accordance with the claim and then used as a basis for making third and fourth round rates. On this matter, the board reserved judgment.

## Pay Large Amount For Workmen's Comp.

Amount to Set Aside for Permanent Disabilities of Workmen

Figures from the 1935 report of the Workmen's Compensation Board, which report was tabled in the legislature on Monday, show that since the last income statement, in August, 1935, there has been paid an amount to workmen a total of \$1,802,275. In addition to this sum there has been set aside for permanent disabilities and fatal accidents the sum of \$1,819,125, of which \$454,570 has been paid for fatal accidents and on permanent disability cases.

The credit balance in this fund at the end of 1935 was \$1,088,736, of which 162 widows and 740 children of deceased workmen, and 340 widows of workmen, were entitled to receive monthly payments.

Payments for medical services for the period 1934 to 1935 totaled \$795,441. In 1935 there were 4,838 accidents, an increase of 972 or over 19 per cent. over 1934, with 46 fatalities and 76 permanent disabilities.

In 1935, \$12,248 was paid to compensation, and \$122,248 was transferred to the pension fund.

## Mass Football Meeting To Be Held March 2

Will Be Held in Medicine Hat to Organize League

At the annual meeting of the Medicine Hat-Redcliff Football Association held at the city hall, Medicine Hat, last Monday, it was decided to postpone the election of officers until March 2nd, when a mass meeting of footballers will be called for the purpose and to discuss the constitution. There was some discussion of the fact that the association was controlled last year. Whether this form of government will be continued this year or the association will revert back to the old system of government by club representation will be discussed at the adjourned meeting. The meeting last Monday was well attended, representatives from all the local clubs and Redcliff being present and in addition a number of interested players and supporters. Also present represented Redcliff at the meeting.

During the meeting the question of medals won by Redcliff last season and not received, was brought up. It was explained by the president, the league that it had been impossible to procure the medals owing to the lack of funds in the league treasury and that they would be the first medal procured as soon as finances warranted. It is hoped that with this explanation Redcliff will enter the league next season as ever.

## Fire Brigade Has Run Last Friday

Makes Quick Run But Not Called Into Action

About one o'clock last Friday afternoon the fire brigade held its 25th anniversary of showing its speedily return when the occasion required. A small bang at the editor's house on the main side of the street, a few minutes after central was notified, the brigade was on the scene with water drawn from the main. Fortunately it was not necessary to turn the stream onto the building. A heated pipe ignited the shingles on the roof of the bath room, and the action of the fire brigade was extinguished, before entirely any damage was done.

We wish to express our appreciation for the prompt manner in which the brigade turned out, and also our thanks to the chief and his men for their care and thoughtfulness in their arrival at the house. Absolutely nothing was damaged by the fire as it was the crew under such circumstances.

## Should Test Seed For Germination

Government Advising Thorough Test Before Seeding

It has come to the attention of the Alberta Department of Agriculture that a large percentage of grain in the province is being sown for germination qualities. It is most important that, before sowing seed, the farmer should have his seed thoroughly tested for germination. This can be done for a nominal fee by sending samples to the division seed testing office at Calgary. It is believed that there is plenty of good quality seed in the province to fill all demands, but it is important that farmers make certain of the quality of their seed before sowing. Those who have not seed available may secure high quality seed through the provincial marketing plant at Edmonton.

## DOMINION GOVERNMENT BANS U. S. MAGAZINE

The Customs Department has issued a special order banning the importation of the American magazine "Liberty," which recently published an article alleged to be misrepresenting the life of the late Queen Mother.

A subsequent issue contained an article of a similar nature concerning the Prince of Wales.

## SCHOOL NEWS

Edna Vernon and Leonard Hicks will represent Redcliff in the final debate at the University of Alberta next week.

Since the debate against Mr. and Mrs. Stone, they have rearranged their material and stimulated many of the weaker points altogether in preparation for the public debate against Mayor Bell and Mr. Matheson tomorrow evening.

Next week the debaters journey to Medicine Hat where they will receive a further polishing off before facing the capital.

Prominent speakers in Calgary will await their arrival there and give the students some final advice before they travel north in an endeavor to prove the provincial championship back to the southern half of the province.

Other years Judge Taylor and A.F. Brown, K.C., have played the same role. It is expected that they will favor the debaters with the same line of argument.

The silver cup emblematic of the provincial championship goes to the winning school and is the most prized property of the school district. It was won for three consecutive years. It has never been won outright by any school yet.

Vergville school provides the opportunity at Edmonton. They are considered a strong team and in addition time held the northern Alberta championship.

## Local Man's Father Dies in England

N. Dacre Received Word of Father's Death Last Week

N. Dacre, of this town, received word last week of the death of his father, James Dacre, who died at the age of 84 in London, England. In mourning the death the Dacres have news that deceased was a noted character of that district and had won fame throughout England as a breeder of pure bred short cattle. Among his stock was a bull which had never been beaten in the show ring. He was also a builder and was well known as one of the most skilled workers in the district.

The type ring which was quite rare in the district, was left by friends from many miles in all directions.

## Saskatchewan Premier In Federal Cabinet

Will Be Next Minister of Railways and Canals

Charles Dunning, premier of Saskatchewan, is entering the King cabinet as minister of railways and canals. Mr. Dunning succeeds Hon. Geo. P. Graham who has resigned his portfolio.

Mr. Graham will continue, however, in the government, as minister without portfolio. Official announcement to this effect was made last Saturday afternoon by Premier King. The premier further declared that F. N. Turner, Liberal, Regina, had resigned his seat in the House of Commons. Mr. Dunning was elected for March 16, 1936, Premier King, with Mr. Turner as the date of the by-election in Regina.

## Respected Redcliff Couple Celebrate Golden Wedding

By Friends and Family Surprised by Friends who Joined with Them to Celebrate the Occasion.

Mr. and Mrs. D. Hollinger, surprised by friends who joined with them to celebrate the occasion.

Last Monday evening a few of the friends of Rev. David and Mrs. Hollinger, learned that it was the 50th anniversary of their wedding day, so decided to give them a surprise.

All gathered at 7:30, about 8 p.m., and it was a complete surprise to the bride and groom of 50 years, but they rose to the occasion in their usual gracious manner, and spent the evening in a most enjoyable manner.

When lunch time arrived a beautiful supply of delicacies was on hand. Some handsome gifts were presented to the honored couple and all enjoyed an event that only comes once in a life time.

Mr. and Mrs. Hollinger are among Redcliff's most highly esteemed citizens. Their noble characters, well-balanced, sympathetic, charitable natures have endeared them to all who know them.

Despite their advanced age both are still active in the discharge of their several duties as leaders in their community. Mr. Hollinger is congratulating them in reaching this milestone in their career and all wish them long life to be spent in labor.

## Mrs. Easton Surprised On Her Birthday

Friends Gathered at Her Home to Celebrate the Occasion

Mrs. Leo D. Easton was pleasantly surprised last Thursday evening when a number of her friends drove to her home to help her celebrate her birthday.

As it was a musical evening the first part of the evening was spent singing, after which games of various kinds were played. Most amusing among the latter was the peanut game in which Mrs. Easton won first prize for gathering in the greatest number.

Mrs. Easton wore a number of beautiful and artistic gowns, among which was a beautiful hand made Morris chair, the seat and back of which is covered with jet black dog hair.

Just before the crowd departed some entertainment was caused by the team running away but Mr. Easton turned them before much damage was done. The evening was a most enjoyable one.

## Alta. Government to Help Coal Industry

Will Pay Share of Freight Rate to Ontario Market

Joint action with the Dominion and Ontario governments is being taken to pay a share of the freight rate on coal to the Ontario market.

Payment of 300,000 tons of coal to the Ontario market has been decided upon by the Alberta government. The province will assume responsibility for a one-third share of the actual freight cost, or \$7 per ton.

Premier Brewster, in announcing this decision, said that the government will co-operate with the other governments along this line, provided that there is a thorough distribution of the coal orders with the Alberta mines, and also provides that the rate of the arrangement is strictly on a per ton basis.

He said that the province will be called upon to make up the difference, if the rate is too high. He said that the province will be called upon to make up the difference, if the rate is too high.

Mr. J. B. Dutt, representing the I.O.O.F. at the Grand Lodge meeting in Calgary last week, reported a busy and interesting meeting.

Geo. Lyall, arrived in town last week from Vancouver. He left on Monday for points east on his present connection with the Glass plant here.

Loss Pinder has been notified by the Garbutt Business College, of Medicine Hat, that she is now a graduate having successfully passed the graduation examinations.

Rev. R. N. Matheson was in Wainwright last week where he gave an illustrated lecture on the missionary work being carried on in Hoonan by the United Church of Canada.

Frank Reid and Mr. Beaudry had an exciting day shooting jack rabbits. They were not working for the government but just practicing for the hunt.

The front of the Club cafe is being greatly improved in appearance by the application of a new coat of white paint. Charlie is strong on cleanliness and a good appearance.

The new staff is busy these days shortening the water cut-offs in front of the main entrance of the town hall. This will be a big improvement as some of these pipes were so high as to be a nuisance to vehicles.

As rehears were practically impossible this season, the famous theatre took every precaution to make a successful photographic reproduction of this spectacular celebration.

The new version of this story was made by Jeanie Macpherson, one of the highest paid actresses in the industry, in collaboration with Benah Marie Dyer, from an old stage scenario of twenty years ago. It is the highest paid actress in the industry, in collaboration with Benah Marie Dyer, from an old stage scenario of twenty years ago.

## Redcliff Has Hero of Ladysmith Seige

George Knight Has Interesting Story of South African War

Next Sunday, February 25th, will be the 25th anniversary of the relief of Ladysmith.

There are few men in Canada today who went through the siege of Ladysmith, and of those few, one is in Redcliff in the person of George Knight. Usually George is not prone to talk about his military experiences but when the 25th of February draws near each year he naturally becomes more enthusiastic and more communicative.

Because of this we were able this week to draw from some of his experiences during the siege but when we would come to the most interesting part, George would remind us that "This is not for publication."

Knight went to Africa in January 1896, to join the British troops under Sir Buller. In October 1899, when war was declared, he was at Dundee under Gen. Buller, who was mortally wounded after six hours fighting.

From there he went to Ladysmith under Sir George White, and was in the city throughout the siege. George says that during the first part of the siege they lived well, but they were later reduced to half rations and such as to eat only one meal a day, and for a time they lived on the barest of food.

At the close of the siege the rations were 4 oz. a day, and for a time they lived on the barest of food. At the close of the siege the rations were 4 oz. a day, and for a time they lived on the barest of food.

After the South African war he returned to England and five years later came to Canada.

When the Great War broke out, he was in England, and again enlisted with a regiment in that province and in France was transferred to the B.C. He took part in the battle of Vimy, and later in the battle of the Somme. He was in the field with Buller's advance to the Transvaal.

Mr. Knight has an interesting military career and is the proud possessor of many medals and honors, and in which he takes most interest in the anniversary of the relief of Ladysmith.

## Redistribution May Reduce Seats to 48

No Suggestion of Change in the Redcliff Riding

G. N. Johnston, former member in the legislature for Corvallis, and who is chairman of the special committee on redistribution, said in the house last week that the committee had several different maps prepared on alternative plans to reduce the number of seats to 48.

The special redistribution committee of the legislature proposes to bring into the house a recommendation that the membership be cut from 60 seats as at present to 48 in the future.

The proposal involves elimination of eight rural constituencies and cutting two members each from the cities of Calgary and Edmonton.

It is expected that the committee will be eliminated again as now represented by farmers members and now by a Liberal. So far as can be seen, the committee has several different maps prepared on alternative plans to reduce the number of seats to 48.

The special redistribution committee of the legislature proposes to bring into the house a recommendation that the membership be cut from 60 seats as at present to 48 in the future.

## Lantern Lecture On Church History

Is Given in St. Andrew Parish Hall Last Monday

There was a very encouraging attendance at the lantern lecture in St. Andrew Parish hall on Monday evening when the "Vicar of Dibley" was particularly in the spotlight during the earliest days to the period immediately preceding the Reformation.

The next lecture will tell the story of the Reformation and the various common fallacies connected with that great event.

The next lecture will tell the story of the Reformation and the various common fallacies connected with that great event.

THURSDAY, FEB. 25, 1926.

### ENCOURAGING

In these days, when we hear and read so much about the advisability and necessity of spending our money in our own country and our own home towns, it is refreshing and encouraging to have a member of the house of commons discuss the question on the floor of the house. It is especially encouraging to learn that this member had the nerve to point to those who, in his opinion, are the greatest offenders and who should be setting a better example. In his address, this member ventured the prediction that not 10 per cent. of the members of the house of commons were wearing all-Canadian-made clothing. He also expressed his opinion, that more than half the gowns worn by the wives and daughters of members and senators, at the opening of parliament and at the drawing room, were imported from foreign countries. That's hitting the nail on the head. But is it not usually the case? The other day the writer was in attendance in this town and happened to remark to the owner about the number of people who purchased a certain line of goods out of town. "What can you expect?" he said. "The man who sells that line of goods never buys anything in town himself. And so it goes."

### A GOOD IMPRESSION

In his first speech in the legislature as premier, Hon. J. E. Brown appears to have created a good impression. His remarks in reply to the speech from the throne show that he has a firm grasp of provincial conditions and also that he and his government have plans for improvement in the future.

One of the most encouraging points which he brought out was the announcement of a general revenue surplus in 1925 of \$158,000, a surplus which he claimed will be the largest in the history of the province.

Other matters which will be of special interest to the south eastern portion of the province is the reference made to the intention of providing financial assistance for elementary education may be given to the weaker school districts of the province, and also some satisfactory solution of the drought area problems.

It is encouraging also to find the premier optimistic over prospects for the future. He predicts that Alberta is on the eve of a great forward movement.

### REDISTRIBUTION

There is much talk among the public these days and much said in the papers about the proposed redistribution bill which is expected to come before the legislature this session. All party leaders appear to be of the opinion that the redistribution, in the house which very easily be reduced without seriously affecting the running of the province successfully. Opinions differ among party leaders and papers as to just what extent the cutting down should go. The ordinary man on the street, however, does not indulge in any half way measures, some going so far as to suggest that the revenue of the province might be left entirely in the

hands of the number now in the cabinet since it is the cabinet that runs the country anyway.

This talk about cutting down the representation is all very fine to tickle the ears of the public, but must be remembered that any definite move to reduce the present representation must come before the legislature and be voted upon by the present members. When any motion of this kind comes before the house it will be interesting, therefore, to see how many of the present members will vote for having his or her constituency wiped off the slate and tacked onto some other constituency. It will also be interesting to learn what the public then thinks of reduction of representation.

The only fair way to arrange for representation, either in the legislature or in parliament, is by population, no matter what classes make up that population or no matter what territory it requires to make up the quota of population necessary for a representative.

### SHOULD HELP SOME

The taking of Mr. Dunning into the King government should strengthen it very materially. At the present time there is not a real outstanding member in the whole federal cabinet, and owing to the unpopularity of a by-election in any province outside of Quebec and Saskatchewan, the prospects of improvement in the cabinet from any other source are very uncertain. On the other hand the official opposition has a score or more members of cabinet qualifications and with a history of past political experience, which makes the task of the government to carry on successfully all the more difficult. The taking into the cabinet, therefore, at this time, of a man of the ability and experience of Mr. Dunning, should considerably strengthen the government. Just how he will hook up with the Progressives, supporters of the present administration, however, will be watched with interest, as in the past he has strenuously opposed them in his own provincial affairs.

According to reports we have not yet heard the last of the C. P. Smith case in which Smith, a former provincial cabinet minister, was accused of stealing over \$5,000 from this province and in which Smith was acquitted. If one is to judge from the evidence brought out during the investigation and at the trial it is hard to understand how the matter can be dropped at this stage of the game. That the province was done out of over \$5,000 there can be no doubt. Whether the loss of that amount of money is described as a theft or a breach of trust, or the clever manipulation of accounts and checks, the fact remains that the province is out that amount of money and that somebody got it. It is up to the authorities to find out who that somebody is.

When A. A. McMillan, leader of the provincial Conservatives, announced that one of the first things he would do on assuming power would be to balance the budget, these were those who said "it can't be done." What will these people now say when they find it has been done a year ahead of schedule?

A party of Montanians, bound for western Canada, mostly to Manitoba, arrived in Montreal recently with the report that three of their party who had gone to Banff, Man., were far from satisfied and intended going north. It is understood that 1,000 Montanians have emigrated to Canada within the last two months and that about 2,500 more would be coming in this spring. Just before the departure of the party, said not one of them thought of going to Mexico.

According to U. A. Andrews, Secretary of the Softwear Exhibition Committee at Montreal, first work has been done in the placing of many returned men in good positions. There are still about 500 returned soldiers, married and living in Montreal, who are out of work, but many of these will be placed in the model city of Newville, which is being constructed by the Aluminum Company of America in the Lake St. John district in Quebec.

Alfred H. Devens has been appointed manager of the Royal Alexandra Hotel, Winnipeg, to succeed S. F. Pierce who has gone to the Vancouver Hotel, according to an announcement by the Canadian Pacific Hotel Department. Mr. Devens joined the Canadian Pacific Hotel Department in 1912, and was later assistant and assistant manager at the Plaza Hotel in Montreal. He will leave the Algonquin Hotel at St. Andrews, N.B., where he has been manager, to go to Winnipeg.

A wide and distinguished galaxy of speakers from Great Britain, France and the United States is announced for the third triennial National Conference on Education, to be held for Montreal and its vicinity. Among those included are The Duke of Athol, Parliamentary Under-Secretary to the British Board of Education, Sir Henry Walford Davies, Chairman of the National Council of Music of Wales; Senator Andre Honnorat, Former Minister of Education at Paris; His Grace, Alfred Dunsford, Archbishop of Paris.

## Where King Carnival Holds Sway

Upper—The hotel party at King House, a new ball field. Lower right—Children with snowballs.

Special holiday festivities at Christmas, including a brilliantly illuminated at night, made the downtown of this form of sport whirling at a 60-mile an hour straight up to the main entrance of the hotel. These are only a few of the winter pleasures so lavishly furnished.

For those who prefer to take their outings more seriously and with a greater expenditure of energy, excursions on snow-shoes or skis have been arranged which will carry the enthusiast to places famous in history, such as the Arne de Beauséjour, the Montmorency Falls, and across the ice bridge over the St. Lawrence to the island of Orleans.

High lights in the winter sports programme take in international hockey matches, of which Princeton of Ireland is a fair example. The same Quebec team will also meet a team from Dartmouth (Nova Scotia). The big solace, however, for February 6 and 7 sees the holding of the international Quebec-Uttara during which world and Canadian Championship snowshoe will be run. It is expected that nearly 5,000 returned snowshoers will be present from all over Canada and the United States. All sorts of old-world French-Canadian customs and unique features, will distinguish this event.

Following the Mardi Gras festival and carnival on February 12 the international Dog Derby will be held February 18-19. It will cover 112 miles in all and will be over a distance of 25 miles a day. Many teams from Eastern and Western Canada, from the New England States, and even as far as Chicago are scheduled to take part.

The Carnival Douglas week and even championship ski sled races will bring the season to a conclusion. One of the most popular features of recent years is the team of heavy-duty sleds under the guidance of Arthur Beaulieu the well-known Indian guide, and led by the redoubtable "Mountain" which takes passengers for long months across country and which are sometimes used to pull ski-tops.

Upper left—Skier at Northcliffe Park, Quebec. Lower right—Children with snowballs.

## THE REDCLIFF REVIEW

WORLD HAPPENINGS  
BRIEFLY TOLD

A referendum on the prohibition of alcohol is proposed in the speech from the throne, read at the formal opening of parliament in Ottawa, Monday.

The North West Territories imported under permit last year 230 gallons of intoxicants. Permits issued total 154.

More British peruvians became exiles in 1932 than in any twentieth century year except 1915, the time when the legendary tank pulled.

Admission charges to the museums controlled by the city of Paris, including the carrousel, have been raised from three to six cents.

Fully 200,000 persons lost their lives and thousands of families are homeless as the result of the recent floods which swept the state of Nevada, Mexico.

The appointment of John Leslie as vice-president and controller of the Canadian Pacific Railway, is announced by E. W. Beatty, chairman and president.

"Slow play everywhere, only 94 a cart," he roared at street peddlers in Philadelphia and the market bazaar declared the price the highest on record for the territory.

With only five members of the Ottawa Unemployed Association having paid their monthly fee of 10 cents so far, therefore eligible to vote, the association voted itself out of existence by three votes to two.

Legislation will shortly come into effect in England providing for the suspension for 12 months of a driving license to follow conviction of the conviction of a driver of an automobile for drunkenness.

Mr. Henry Thompson, president of the Canadian National Railway, will throw the weight of his influence into the promotion of plans to provide more carriers from Canada to port Canadian goods, according to a statement made at London.

After several years in Ottawa, where he compiled the post of news editor for the Canadian Press, Harold Haines, former Winnipeg newspaper editor, left for New York. He has been appointed to one of the important positions in the Canadian news-gathering organization, that of superintendent of the New York bureau.

## A Notable Companion

U. S. Agents Coming Here on Pleasure-Tour On Education

The people of the United States, according to the Educational Digest, a monthly publication, spend almost twice as much in pleasure as on public school instruction. The women in the Republic spend more on cosmetics, perfume and silk dresses than it is expended in public education. We do not for a moment deprecate the necessities of women for these things; they keep industry going—but we should call attention to the expenditures by way of comparison to the United States, as well as in Canada there is a constant complaint over the costs for educating the children of the States. The Canadian women and men spend equally as much for tobacco, perfume, cosmetics, dresses, and so on, as the women of the United States, three dollars for personal delicacies but for public instruction, the most economical thing in democracy—elementary school.

## Economy in British Army

War Office Demands Use of Iron Shrapnel For Cavalry

British cavalry officers have been requested to their horses' use of economy where which has swept through the war department.

Shrapnel have been sent down a bit in their other use, but their shrapnel has not been interfered with.

Agents in the army march under the lead some single and some in pairs. From the black shrapnel, of which the cavalry have been proud, are being replaced by the shrapnel, which are cheaper, and the officers' agents to be changed out by the department are to be of a steel shrapnel which will shoot but not cost the government so much money.

## Find Scientists Painted Red

Human scholars painted a deep red have been found by German archaeologists in the vicinity of Bismarck.

They are believed to belong to the Christian race which inhabited the coast of North Sea 7,000 years before Christ. It was the custom of this ancient race to wear the person of their dead with which, which was believed to preserve the bodies against decomposition.

Men in advance of their age may be at times as much as they are at times.

## Answer to Last Week's Puzzle

Seeking to Purchase Old Home Dr New

In the West. A recent Canadian Press dispatch dealing with the return of a number of Canadians in Western Canada reads in part as follows:

"Groups of Manitobans, who in 1922 and 1923 disposed of their large farm holdings in Western Canada and went to Mexico, have returned here recently and to get back after suffering from hardships and privations through crop failures."

"The Manitobans, originally natives of Canada, are a religious sect opposed to war and desecration of graves of their own soldiers and churches in the western districts they lived in."

"While you are glancing over world developments in 1932 take a long look at the Canadian situation, especially in the West. Study the situation in New York City. Continuing, the editorial reads, in part: 'An agricultural country, primarily Canada has added nearly in her wealth this year. The Dominion bureau of statistics estimates that the Canadian people have added \$1,112,000,000, a gain of \$1,117,000,000 over 1931 and of \$2,000,000,000 over 1932. These are striking figures, but the chances are that the aggregate for this year is decidedly conservative. If the wheat yield should not prove final to have been a great deal more than the estimated \$467,750,000, such a result could come only from some violent reaction in prices which seems impossible at the moment."

"Sir Vincent Meredith, chairman of the Bank of Montreal, recently informed of the bank's shareholders that wheat would probably bring in \$200,000,000 new money from this year's crop. On the basis of a price of \$1.50 per bushel, the \$200,000,000 bushels remaining to be sold, if added to the receipts from the 1931-32 harvest, would be approximately \$1,200,000,000 or so and raise the Canadian estimate by more than \$500,000,000."

"A market awaits Canadian wheat."

"Canada is sitting in a preferred position with a large exportable surplus still to be sold at prices which promise to be good. The wheat crop was large and the average of other crops was not much different from that of 1931; some wheat had better weather. Increased wheat should help to take increased purchases of manufactured goods. It looks like a good business year north of the border in 1932."

## Interesting Local Items

The birth rate in every province in Canada, except Ontario, fell off considerably in 1925.

Ge. Knapp, of Brooks, is spending a few days this week in town visiting friends.

Last Sunday evening while Mr. and Mrs. Fowler were at church, their car broke into their home and stole some money and other articles.

The W.M.S. of Gordon Memorial will hold a tea and sale of home cooking in the church on Saturday afternoon, March 6th from 3 to 6 p.m.

Premier King's official majority in the Prince Albert by-election is 1,628. His opponent, Mr. Burgess, loses his deposit.

On Saturday, March 6th, the W.M. 25 of Gordon Memorial church will hold afternoon tea and sale of home cooking in the church. All are invited to be present.

According to feelings as reported from Ottawa, the King government will weather the storm this session and there will be no division election until 1927 at least.

Owing to other attractions the dance given by the Danzingers last Friday evening was not as well attended as usual. However those who were present report the usual good time.

In future, the baby clinic which has been held regularly in the church on Thursday of each month, will be held on the first Thursday of each month. The clinic will continue to be held in the school.

Camie Maclean was second to happy to accommodate the crowd that turned out to see "East Lynne" last Thursday evening. Bill Marx with his directing and other talents, was well received.

Melanie Hat Manarcho defeated Michel in both hockey games in the Hat Tuesday and Wednesday evenings of this week. The first game was 5-4 and the second 7-3. The Manarcho will now face High River in the provincial play-off.

G. S. Finkle, member for Melville in the Legislature, got definite assurance from Hon. Alex. Ross, that the highway from Melville Hat to the boundary line leading to Havre, Mont., would be built this year. MacLean will complete the line from the international boundary to Havre.

Mrs. H. Chapman received the sad news of the sudden death of her mother, Mrs. Robert Atkinson, at her home in Armstrong, B.C. Donald is well known in Redcliff having lived here for several years. Mrs. Chapman left on Monday's train for Armstrong to attend the funeral. The cause of Mrs. Atkinson's sudden death is not yet known here.

Quite a number from Redcliff attended the Empress Theatre last evening to see Sir Marlin Hargay and his English company. The play, "David Garrick," was more of a loss of disappointment. Not because the different characters were not well portrayed, but because the play gave very little opportunity for Sir Marlin to show his wonderful talents in the scenes where he is so noted.

Mr. and Mrs. R. F. Ross of the Olds district, arrived in town yesterday to visit friends.

Bill Willis, who has been in Nanaimo, B.C., for the past two months returned to town last Monday.

W. J. Maclellan, manager of the Dominion Greenhouses here, spent Monday in Calgary on business.

E. W. Stevens, of the Ringville Hotel, has been appointed a commissioner for taking taxes.

S. H. Galloway, formerly of the Brochu district but now of Mito, returned to Brochu last week to tear down his buildings and move them to Mito.

Be sure to attend the debate in Gordon Memorial church tomorrow (Friday) evening. The debaters need your assistance.

Officers and members of the local militia entertained their friends to a banquet and dance in the assembly hall Friday evening and, according to reports, it was a most successful affair.

A gathering of people met at the home of Mrs. Ferguson on Wednesday to witness the raffling of the new baby land over the winning No. 78 which was held by F. Ollin.

Despite the delay at the Cameo theatre last Thursday evening the large crowd in attendance thoroughly enjoyed the program. All understood the cause of the trouble and took it good naturedly.

Kahley Bros. are shipping potatoes this week to most of the wholesale grocers in Medicine Hat. Despite the dry season they raised 100 bushels per acre on a 40-acre plot just north of town. The potatoes are of splendid quality.

A leading Paris hair dresser says the use of henna hair is now in vogue and that it will only last another year at most. We don't believe her. Every little while we have the same thing about short skirts but we haven't noticed them growing any longer yet.

Manager Mahliot of the Cameo theatre wishes to apologize to his patrons for the delay in getting the show started last Thursday evening. Engine trouble was the cause. Every precaution will be taken to guard against this in the future.

Chong Fung, who has conducted the Albert Cafe here for several years, left this week for Shumavon, Sask., to take over a business in that town. The Alberta cafe will continue to run under the management of Chong's nephew till his father "Fat" returns from China.

It is expected there will be a division on the address in the local house tonight and it is said that the house will adjourn till March 15th. In the meantime some more changes will be made in the cabinet and arrangements made for the necessary by-elections.

Jim Palenta, Jim Kerr, Joe Jacobson and Walter Rutherford are training to enter the provincial boxing tournament.

Juniol their practice at Gordon Memorial church will be held at seven o'clock tomorrow evening. The senior choir will practice after the service.

## Hebrideans Happy In Canadian West

The Hebrideans with the newly erected windows—their new homes in the west.

Rapidly carrying out new homes in Western Canada from their native land, the Hebrideans have established a country. At Exeter, near Red Deer, Alberta, it is evident that the women take great pride in their culinary accomplishments. Mrs. Nell MacLean, one of the Hebrideans, told how she got a book and learned how to make cakes. "A woman," she said, "one of my neighbours, taught me how to make bread and I have twice a week. I now can bread bread, till I came to Canada, but we all like to bread, that's our work."

Mrs. MacLean's husband was a miller and fisherman in the Hebrides and was always away. Mrs. MacLean now feels that it is good to have her at home on the farm as they feel as much more settled. On the farm they had a small herd of twenty-five cows and kept two cows. Mrs. MacLean did the work while her husband was at home. The wife family worked from dawn till late every night and yet they could not make enough to feed themselves. So they finally came to Canada.

On their new farm of 160 acres near Exeter, Mr. and Mrs. MacLean, with their eight children, have been settled for over two years. This year they are expected to have a third child. One of the girls who had some years of experience in service in the Hebrides, is now a housekeeper at a very comfortable wage while six of the eight MacLean children attend school in the district of their farm and Mrs. MacLean says that they are all very fond of their studies. The proud mother explains that "As soon as they did not like the master and would cry when I made them go to school; here they tell me if they have any more."

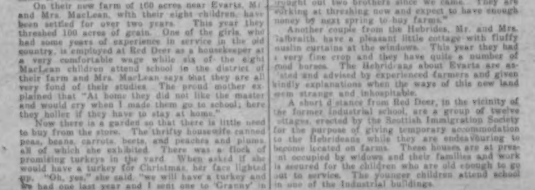

Now there is a garden so that there is little need to buy from the store. The garden is full of peas, beans, carrots, beets and peaches and plums, all of which the children like. There was a flock of prairie turkeys in the yard. When asked if the children had a turkey for Christmas, her face lit up. "Oh, yes," she said, "we had a turkey and we had one last year and I sent one to Grassy in the Hebrides."

A Hebridean family.

And that is more than I was ever able to do at home. And we are getting all the time. I have brought out the children since we came. They are working at thrashing now and expect to have enough money to next spring to buy farm.

Another couple from the Hebrides, Mr. and Mrs. MacLennan, have a pleasant little cottage with fluffy curtains at the windows. This year they had a very fine crop and they have quite a number of good horses. The children are also very active and advised by experienced farmers and good steady explanations when the ways of the new land seem strange and unobtainable.

A short distance from Red Deer, in the vicinity of the former industrial school, are a group of Hebridean cottages, erected by the Scottish Immigration Society for the purpose of giving temporary accommodation to the Hebrideans while they are endeavouring to become located on farms. These houses are at present occupied by widows and their families and work is secured for the children who are old enough to go out to service. The younger children attend school in one of the industrial buildings.
